---	---	----	---

Artifacts

Artifacts are objects that can be discovered on the map. They cannot be attacked. There are two ways to interact with artifacts:

collect artifact as treasure

- Stand next to the artifact with a king and collect it by removing it from the game and drawing a treasure card.

collect artifact as relic

- Stand next to the artifact with a priest and collect it by placing it in a free relic slot in a church.

All these common pieces only have one ❤️ health point and do not require a number, card or a construction site.

Neutral Buildings

Neutral buildings do not belong to any player

Farm
