

Abandoned Project

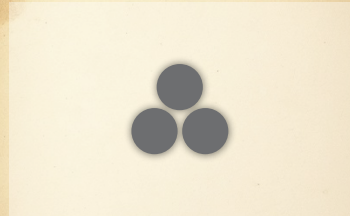

Immediately place a construction site in place of the treasure.

You happen upon a surprising circumstance: Someone started a construction project, but left it unfinished, seemingly not interested in continuing it. This should hardly pose a problem.

9

Auspicious Tragedy

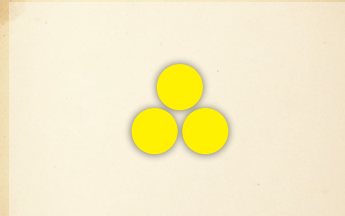

Immediately place 3 stone ores in place of the treasure.

Beneath the artifact you recognize a coloration that can only mean one thing: A vein of marble is running directly below your feet. Mining it will surely lead to riches and prosperity.

10

Exposed Ores

Immediately place 3 gold ores in place of the treasure.

In an easily overlooked trough you spot what can only be the glistening of stone rich in ores. Here should be a good spot to set up a mine.

A Life Of Service

Immediately recruit a villager for free in place of the treasure.

*"Thank you for saving my life!"
The young fool professes after you kill the wolf that had waited under the tree on which the fool had climbed.*

"I'll forever be in your debt." 12
